Projects / Practical Work

SportsSphere (<https://tejbhuvana-hue.github.io/SportsSphere/>)

- Developed SportsSphere, a web-based platform connecting players with sports opportunities and clubs. Designed an intuitive, responsive interface to explore events, profiles, and activities, enhancing accessibility and user experience.
Technologies Used: HTML, CSS and JavaScript.

Portfolio Website (<https://santhoshkumarcheruvupally.github.io/port/>)

- Developed a responsive personal portfolio website to showcase skills, projects, and contact details. Designed user-friendly sections including About, Skills, Projects, and Contact for better accessibility and presentation.
Technologies Used: HTML and CSS.

Smartphone Lock Status Detection Using AI (<https://chsanthoshkumar.weebly.com/>)

- Developed an AI-based system using Google Teachable Machine to detect smartphone lock status via webcam images. Built and trained a machine learning model for real-time detection while preserving privacy by avoiding facial recognition.
